GENERAL SUBJECT MATTER

Include the policy name and number of any existing policies associated with this concept.

There are four old OUS policies which the UO inherited as part of the governance transition. They are listed below and attached (numbers were assigned by us and are used in the UO policy library as OUS did not have a numbering system).

- (i) Joint Campus Programs (For Graduate Students) (OUS 32)
- (ii) New Graduate Programs (External Review) (OUS 37)
- (iii) New Instructional Programs, Follow-Up (OUS 38)
- (iv) Curricular Allocations, Policies and Procedures (OUS 18)

RELATED STATUTES, REGULATIONS, POLICIES, ETC.

List known statutes, regulations, policies (including unit level policies), or similar related to or impacted by the concept. Include hyperlinks where possible, excerpts when practical (e.g. a short statute), or attachments if necessary. Examples: statute that negates the need for or requires updates to an existing policy; unit level policy(ies) proposed for University-wide enactment; or existing policies used in a new, merged and updated policy.

Oregon Revised Statute 352.089(2) and related OARs covers the HECC's role in approving changes to academic programs. OARs most directly related to programs include chapters 583 and 589.

STATEMENT OF NEED

What does this concept accomplish and why is it necessary?

These policies are not necessary and should be repealed. They are hold-overs from the Oregon University System and are either completely irrelevant or cover material that is now articulated in statute, HECC rule, or HECC processes.

OUS 18: This policy references the State Board (which no longer exists) and the subject matter is now covered by ORS and the HECC.

OUS 37: This material is also now covered by the HECC. Ultimately, the graduate school would like to have clear language on the website, etc. about processes and requirements from accreditors, HECC, etc., but that is not a “policy”

OUS 38: Again, this is set by HECC (and not to mention this policy language is very outdated)

OUS 32: This program still exists, but the policy (44 years old) is not necessary. It does not reflect existing realities of the program and is more about OUS authorizing such partnerships. The Graduate School has moved to an MOU model, which it has done with PSU and will do with OSU to ensure a modern understanding.

AFFECTED PARTIES

Who is impacted by this change, and how?

NA – Since these subjects are all covered and managed elsewhere, no one is affected by the repeal of these policies. It doesn’t change current practices, rules, obligations, etc.

CONSULTED STAKEHOLDERS

Which offices/departments have reviewed your concept and are they confirmed as supportive? (Please do not provide a list of every individual consulted. Remain focused on stakeholders (e.g. ASUO, Office of the Provost, Registrar, Title IX Coordinator, etc.).)

Policy Statement:

1. A registration procedure will be created that will encourage graduate students registered at either Oregon State University or the University of Oregon to take full advantage of the specialized graduate facilities and resources located on both campuses. Such graduate programs as would thus draw upon the resources of both campuses are hereafter referred to as "joint-campus" programs.
2. The following registration procedures are adopted for students participating in the "joint-campus" program, whether they are enrolling for all, or only a part of, their term's work on the "host" campus:
 - a. The student and his regular advisor will plan the term's course program in the usual fashion drawing upon the resources of both the Corvallis and Eugene campuses, as to them seems useful.
 - b. The student will register in the usual fashion on his "home" campus for all of the coursework to be taken on the Corvallis and Eugene campuses. He will list his

"home" campus courses on his registration form by the prescribed prefix, number, and title indicated in the catalog, as usual; the courses to be taken on the "host" campus will be listed on the registration form as "JC 510" (for "joint-campus") followed by the initials of the "host" institution (OSU or UO) and the prefix, number and title of the course as listed in the "host" campus catalog.

c. The fees paid by the student will be the same as if the courses were all being taken on the "home" campus. The student body card will be issued for the "host" campus.

d. The instructor(s) on the "host" campus will receive from the registrar of the student's "home" campus a class registration card signifying that the student is a bona fide graduate student, duly and properly registered on the "home" campus for the specific course(s) in question.

e. At the conclusion of the term, the instructor(s) on the "host" campus will complete the grade cards received from the "home" campus registrar and will return them to the "home" campus registrar.

f. A record will be maintained of the number of such registrants and the courses taken on the "host" campus. If the instructional service provided by the two campuses, for the students they are asked to "host," does not balance out Copy and paste the actual language of the policy here reasonably evenly, necessary fiscal adjustments will be made between the two institutions, following a joint recommendation from the presidents of the two institutions to the Chancellor.

3. The re gistration procedure proposed above, or one equally effective, will be extended to other institutions of the System, wherever distance between campuses does not make such "joint-campus" programs infeasible.

4. It is understood that the "home" institution will grant any degree earned by a student taking advantage of the "joint-campus" program, and the degree will be a degree allocated to the "home" institution.
